Polishing & Finishing Tools

CT-476

Tweezers Coated Steam

Ceramic Flux Spray Coating

Rs 800

25 ml bottle

Soldering & Welding Tools

CT-440

Firescoff® is a spray-on ceramic coating that provides ultra-consistent solder flow and unbeatable protection against firescale. Protects gemstones and metals, preserves original polish, color and patina of precious metals. Water soluble, eliminates need for acid-based pickle solutions--so it's safer, faster and more cost-effective. Spray, solder, rinse with warm water. Non-flammable, fluoride- and chloride-free (ruby/sapphire safe). □

- Replaces flux, firecoat and pickle, providing flawless void-free welds □
- Multiple soldering w/single application from 1-ounce spray bottle □
- 60% reduction in prep time; Non-toxic, with no outgassing (see MSDS)

6x6" Cordierite boards

Rs 550

piece 6x6"

Soldering & Welding Tools

CT-829

Handles high heat well, especially useful for working with platinum.

Professional Butane Torch

Rs 1,199

piece

Soldering & Welding Tools

CT-825

Professional butane torch

# Cool Toolz Catalog July 2015

Jewelry Shield

Rs 475

250 ml bottle

Materials/Consumables

CT-811

Jewelry Shield with applicator in 250ml uncarded bottle; shields sensitive skin from jewelry irritation or protects areas of jewellery during production. One in four people has an allergy to alloys present in costume and fine jewelry glasses watches. Many people react adversely to metals: their skin turns black green or suffers from an itchy rash. Brush transparent Jewelry Shield onto jewelry and metal accessories creates an invisible shield protecting sensitive and allergy-prone skin. Jewelry Shield's specially patented formula lasts much longer than any other product or remedy available. One application lasts three months.
